EXECUTIVE SUMMARY

Analytical and detail-oriented Information Science graduate from the University of Colorado Boulder. Experienced in building data dashboards, leveraging AI tools, and delivering actionable insights using Python, HTML/CSS, and SQL. Passionate about turning data into decisions and building tools that make information accessible.

EDUCATION

Bachelor of Science in Information Science

University of Colorado Boulder

Relevant Coursework: AI Development, Data Analysis, Information Visualization, Web Design, Statistical Engineering

PROJECTS

Sensed - Senior Capstone

- Developed a full-stack web application that captures and structures user-generated emotional and sensory data tied to music
- Designed interactive dashboards and data-driven UI components to visualize personal music associations and enhance user engagement
- Collected and analyzed 100+ survey responses to identify user behavior trends and inform feature design and UX decisions
- Integrated the Last.fm API for song retrieval and metadata enrichment, enabling dynamic user experiences

Vinyl Vault - Music Data Platform (Full-Stack)

- Developed a web platform for cataloging physical music collections, supporting 100+ users
 - Implemented AI/ML recommendation logic using artist, album, and genre data to enhance personalization
 - Integrated Last.FM API to deliver personalized recommendations and detailed analytics for CDs, vinyl, cassettes, and more
-

WORK EXPERIENCE

Hummingbird AI - IT Consultation

Professional Development Program | 10-Week Technical Training

- Completed an intensive 10-week program focused on Microsoft 365 administration, Power Platform, and business consultation with enterprise IT systems.
- Built workflow automations and business process solutions using Power Automate, Power Apps, and Microsoft Power BI.

Data Analyst and Assistant Project Developer

Considera Core - Lakewood, CO

- Studied user feedback and helped to propel that into reasonable change
- Assisted the visual effects department and overlooked game design tests. Utilized Unity Game Engine
- Managed audio production and music integration into various video game projects with Ableton and Audacity

Marketing Management and Web Progression

Solaroid Studios - Denver, CO

- Assisted in merging mobile app into a fully fledged web application format. Employed HTML, CSS, JS, and SQL
 - Expanded Marketing through social media management and online cultivation in advertisement designs.
-

SKILLS

Technical: ML/AI, Python, SQL, Excel, HTML/CSS, GitHub, NumPy, Adobe Suite, Ableton, Power BI

Analytical: Data Cleaning, EDA, Data Visualization, Forecasting, Statistical Analysis, UI/UX
